

THE CAMERON

The Cameron is a semi-detached or terraced three-bedroom home carefully created with modern living in mind.

The downstairs accommodation consists of a large living room enjoying a wonderful open-plan layout to the dining kitchen (supplemented by a utility room), which in turn opens onto the garden. On the first floor you will find three bedrooms. The principal bedroom boasts a built-in wardrobe and en-suite facilities, with the remaining bedrooms served by a family bathroom. Outside, in addition to the garden, the Cameron comes with one or two private parking spaces (plot dependent).
